Service Inventory

Added to the core Service Management software in Sage 300 Construction and Real Estate (formerly Sage Timberline Office) Service Inventory makes it easy to maintain an accurate perpetual inventory.

Service Inventory enables you to automatically update inventory at the time of invoicing, track minimum and maximum inventory levels, perform accurate physical counts, look up AKA part numbers, and more.

Inventory control

- Automatically update inventory at time of invoicing.
- Track minimum and maximum inventory level.
- Perform accurate physical counts.
- Look up AKA part numbers with a single mouse click.
- Track serialized parts.
- Automatically generate customer equipment information from invoicing.
- Track inventory carried on trucks and create stocking lists for each truck.
- Generate detailed inventory transactions; for example produce a restocking list of parts used per truck.

Service Inventory is a part of Sage 300, fully integrated software created to streamline work and connect the people you depend on to build your business.
